Old Business School repairs are completed for the time being. A new well pump was placed and so far the reports back are good, but it is known that at some time all the lines will need to be replaced. In regards to the grant, currently it is on hold. We are considering locating someone to assist in the grant writing process.

New Business Discussion was held in regards to the cost effectiveness of CCD during the winter months. The basketball hoop repair is pending. Proceeds from the dinner were all good. A motion was made and carried to accept all orders of business.

Meeting was closed with a prayer.

The next meeting will be on Thursday, January 19, 2012 at 7:00 p.m.
